GROUND FLOOR PLAN · SINGLE STOREY · LAYOUT R3 · FRONT FACES WEST

Four-bedroom village house

Attached baths for the two front bedrooms, a skylight over the dining, a partition between the drawing room and dining, and one verandah across the whole front. The front faces west; the kitchen faces east.

MAIN BLOCK 37'-11" × 35'-6"	WITH VERANDAH 37'-11" × 39'-6"
COVERED AREA ≈ 1,346 sq ft	VERANDAH ≈ 152 sq ft
ROOM SIZES Clear, inside walls	WALLS 10" outer · 5" inner
FACING Front to the west	DATE 21 Sep 2026

Brick wall · ইটের দেয়াল
Door and swing · দরজা
Window / vent · জানালা / ভেন্টিলেটর
Wet area (tiled, sloped) · ভেজা জায়গা (টাইলস, ঢালু)
Floor drain · ফ্লোর ড্রেন
Skylight above · স্কাইলাইট
Furniture (for fit only) · আসবাব

ROOMS · ঘরের মাপ

ROOM	CLEAR SIZE	AREA FT²	DRAWN INSIDE
Bedroom 1 শোবার ঘর ১	12' × 14'	168	6' × 7' bed, 2 side tables, almirah, dressing table North-east corner · outside door (D4) in the north wall · uses the common bath
Bedroom 2 শোবার ঘর ২	12' × 14'	168	Same as Bedroom 1, mirrored South-east corner · coolest room: south breeze, morning sun · uses the common bath
Bedroom 3 শোবার ঘর ৩	12' × 14'	168	5' × 7' bed, 2 side tables, almirah, study table under the front window North-west corner · outside door (D4) in the north wall · door to attached bath
Bedroom 4 শোবার ঘর ৪	12' × 14'	168	Same as Bedroom 3, mirrored South-west corner · door to attached bath
Kitchen রান্নাঘর	7' × 10'	70	L-shaped counter, 2-burner stove under the east window, sink, fridge (FR), shelf rack
Common bath বাথরুম	4' × 7'	28	Toilet set north–south, shower, floor drain
Attached bath × 2 এটাচড বাথ	7' × 5'	35 ea	Toilet set north–south, shower, floor drain
Basin corner বেসিন	4' × 3'	12	Hand-wash basin facing the dining
Dining + passage ডাইনিং	11'-5" × 14'	≈ 210	6-seat table 5' × 3', skylight (SL) above Area includes the two side bays
Drawing room ড্রইং রুম	11'-5" × 9'	103	3-seat sofa, 2 armchairs, centre table
Verandah বারান্দা	37'-11" × 4'	152	Joined across the whole front, 4 steps at the main door

DOORS · দরজা

TAG	W × H	NO.	WHERE · MATERIAL
D1	3'-6" × 7'	1	Main entrance Solid wood
D2	3' × 7'	5	4 bedrooms + kitchen Wood panel or flush door
D3	2'-6" × 7'	3	Bathrooms PVC — water does not rot it
D4	3' × 7'	2	Outside doors in the north wall of Bedrooms 1 and 3 Solid wood or steel, strong bolt
O1	3'-6" × 7'	1	Drawing ↔ dining opening No leaf; curtain, or add a door later

WINDOWS & VENTS · জানালা

TAG	W × H	SILL	NO.	WHERE
W1	4'-6" × 4'-6"	2'-6"	8	Two per bedroom, on both outside walls
W2	3' × 4'-6"	2'-6"	2	Drawing room, either side of the main door
W3	3' × 3'-6"	3'-6"	1	Kitchen east wall, above the counter; 12" exhaust fan beside it
V	2' × 1'-6"	5'-6"	3	Bathrooms — high up for air and privacy
SL	4' × 4'	roof	1	Skylight over the dining table

Doors and windows all top out at 7'-0", so one lintel band runs around the house. Thai aluminium sliding windows with an MS grill are the usual choice. Put a 2'-0" sunshade (chhajja) over every window. The west (front) windows already sit under the verandah roof.

NOTES FOR THE MISTRI · মিস্ত্রির জন্য

SIZES
Every size on the drawing is the clear room size inside the walls. Walls are extra: 10" outside, 5" inside. That makes the outer size 37'-11" × 35'-6".

HEIGHTS
Floor (plinth) at least 2'-6" above ground and above the highest flood seen here. Verandah 2" lower than the rooms. Ceiling 10'-0". Door and window tops at 7'-0".

SUN & WIND
The front (west) takes the hot afternoon sun. The 4' verandah shades the front rooms; plant shade trees in the front yard and hang bamboo blinds (chik) on the verandah if it gets too hot. The south breeze enters through Bedrooms 2 and 4. The kitchen on the east gets morning light.

CONFIRM BEFORE BUILDING · কাজের আগে ঠিক করুন

COMMON BATH
At 4' × 7' it fits a toilet and a small shower corner, with a 2'-6" door. Bedrooms 1 and 2 at the back share it; Bedrooms 3 and 4 have their own attached baths.

SECOND FLOOR
If you might build up later, tell the engineer before the foundation. It will need RCC columns and beams now, and space for a stair outside on one side wall.

COOKING FUEL
If you cook with wood or straw on a clay stove (chula), put a small open kitchen shed on the north side of the yard. The summer wind then blows its smoke away from the house.

WET AREAS	Bath floors 1" lower than rooms and sloped to the drain. All three toilets run north–south (left–right on this drawing). Common bath, basin and kitchen sink sit side by side, so one water line and one drain line serve all three.
KITCHEN	Counter 2'-8" high, 2'-0" deep. Stove on the east counter under the window, with the exhaust fan beside it. The summer wind comes from the south-east, so it can push kitchen smoke back into the house: cook on gas indoors and keep the fan running.
SKYLIGHT	4' × 4' hole in the roof slab with a 1'-6" raised curb, fixed glass or polycarbonate on top, side louvres to let hot air out, and an MS grill underneath for security.
SEPTIC TANK	In the back (east) yard, at least 30 ft (10 m) from the tubewell. More is better, and keep it on the lower side of the ground.
LAND	The house plus verandah and steps needs about 38' × 43', plus open space around it for light, air and drainage.

This is a layout plan for agreeing room sizes, doors, windows and furniture fit. It is not a structural drawing. Have a civil engineer size the foundation, roof slab, beams and lintels before construction starts.
